Various smaller projects

Welcome to my little projects, where my computer skills flourish in a series of inspiring projects! This website represents the continued growth of my portfolio, where I create and develop a variety of smaller projects, each showcasing my unique computer skills, including HTML, CSS, JavaScript, PHP and more.

Projects done so far:

- **ShirtCreator** - User-friendly web application that allows users to customize and visualize shirt designs in 3D
- **CarShowcase** - Car Hub is a user-friendly web application that simplifies the process of finding and comparing rental prices for various cars.

- **Sushi** - Sushiman Landing Page: A responsive and captivating landing page for a fictional sushi restaurant, built with HTML, CSS, and JavaScript.
- **JCPRO** - SEO website about PDF guide searching
- plus more in the making
